ELASTOSIL® RT 620 A/B

ELASTOSIL®

Room Temperature Curing Silicone Rubber (RTV-2)

Pourable, addition-curing, two-component silicone rubber that vulcanizes at room temperature.

Main application: Making printing pads, food contact (FDA/ BfR compliant).

Properties

- Very good flow
- High reactivity for fast demolding even if large amounts of silicone fluid are added
- Fast and non-shrink cure at room temperature which can be accelerated considerably by the application of heat
- Very low hardness (Shore A approx. 17)
- High tear strength
- Translucent when cured, any color possible by adding a Wacker Pigment Paste FL

Specific features

- Addition Curing
- BfR compliant
- FDA compliant
- Flowable
- Food-contact
- Low viscosity
- No chemical shrinkage
- Two-component

Technical data

Properties Uncured

| Property | Condition | A | В | Method |
|--------------------|-----------|------------------------|------------------------|-------------------|
| Color | - | translucent | - | - |
| Density | 23 °C | 1.06 g/cm ³ | 0.98 g/cm ³ | DIN EN ISO 2811-1 |
| Viscosity, dynamic | 23 °C | 7000 mPa·s | 1200 mPa·s | ISO 3219 |

These figures are only intended as a guide and should not be used in preparing specifications.

Properties Catalyzed A+B

| Property | Condition | Value | Method |
|--------------------------|---------------------|------------|-----------------|
| Viscosity, dynamic | 23 °C | 6000 mPa·s | ISO 3219 |
| Mix ratio ⁽¹⁾ | - | 10 : 1 | A : B |
| Pot Life | 23 °C 60000 mPa·s | 35 min | DIN EN ISO 2555 |
| Curing time tack-free | - | 4 h | - |

¹(pbw)

These figures are only intended as a guide and should not be used in preparing specifications.

Properties Cured

After 24 h at 23 °C

| Property | Condition | Value | Method |
|---------------------|-----------|------------------------|---------------------|
| Color | - | translucent | - |
| Density in water | 23 °C | 1.05 g/cm ³ | DIN EN ISO 1183-1 A |
| Tear strength | - | ≥ 12 N/mm | ASTM D 624 B |
| Hardness Shore A | - | 17 | DIN ISO 48-4 |
| Tensile strength | - | 5 N/mm ² | ISO 37 type 1 |
| Elongation at break | - | 900 % | ISO 37 type 1 |
| Linear shrinkage | - | ≤ 0.1 % | - |

These figures are only intended as a guide and should not be used in preparing specifications.

All the information provided is in accordance with the present state of our knowledge. Nonetheless, we disclaim any warranty or liability whatsoever and reserve the right, at any time, to effect technical alterations. The information provided, as well as the product's fitness for an intended application, should be checked by the buyer in preliminary trials. Contractual terms and conditions always take precedence. This disclaimer of warranty and liability also applies particularly in foreign countries with respect to third parties' rights.

Applications

• Elastomers for Pad Printing

Application details

Base rubber for making printing pads.

Processing

Important note:

The platinum catalyst is in **component B.**

Important:

A and B components may only be used together if they have the same batch number.

To ensure optimum flow of the material, the components must be stirred thoroughly before they are removed or processed in their containers.

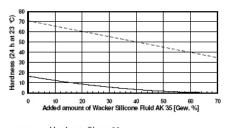

Dilution charts:

The following table shows the hardness of ELASTOSIL® RT 620 A/B as a function of the added amount of Wacker Silicone Fluid AK 35 for Durometer Types Shore A and Shore 00.

Please check also our brochures and info sheets.

Hardness Shore A / Shore 00

| Added amount of Wacker Silicone Fluid AK 35 [wt %] | | | | | | |
|--|----|----|----|----|----|----|
| | 0 | 20 | 40 | 50 | 60 | 70 |
| Shore A | 17 | 8 | 4 | 2 | 1 | 0 |
| Shore 00 | 71 | 61 | 50 | 45 | 40 | 35 |

---- Hardness Shore 00 ---- Hardness Shore A

Packaging and storage

Storage

The 'Best use before end' date of each batch is shown on the product label.

Storage beyond the date specified on the label does not necessarily mean that the product is no longer usable. In this case however, the properties required for the intended use must be checked for quality assurance reasons.

Safety notes

Components of the addition-curing grade ELASTOSIL[®] RT 620 A/B contain only constituents that over many years have proved to be neither toxic nor aggressive. Special handling precautions are therefore not required, i.e., only the general industrial hygiene regulations apply.

Comprehensive instructions are given in the corresponding Material Safety Data Sheets. They are available on request from WACKER subsidiaries or may be printed via WACKER web site http://www.wacker.com.
