

ACHEM MB-1008S

Release spray for model making

Description: **MB-1008S** is a newly developed, wax-containing release spray. The release film is very adhesive, has good sliding properties and forms a uniform release film. **MB-1008S** has a very high separation reserve.

MB-1008S is also available as loose goods (ACHEM MB-1008).

Areas of application: Separating spray, containing wax

Technical data:
(active ingredient)

Look:	white
Odor:	typical of the species
Viscosity:	medium viscosity
Density (20°C):	0.72g/cm ³
VbF:	AI, highly flammable

Application: **MB-1008S** is used undiluted. The release agent should be sprayed thinly and evenly by hand. It is important to ensure that all areas are wetted evenly.

Storage: The containers should be stored dry and frost-free.
Direct sunlight should be avoided.
Storage stability: at least 12 months

Packaging: Cans of 500ml each
